

TZ Medical Defibrillation Electrodes are constructed to adhere and conform to the patient's body, providing superior current distribution, which results in better clinical outcomes.

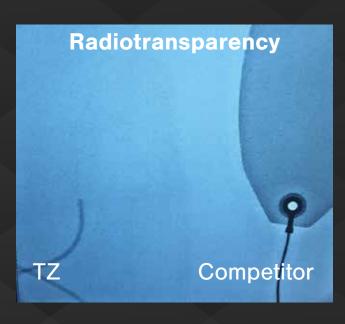

Our multi-function electrodes are designed for EP and Cath Labs, Cardiac Surgery, Critical-Care Areas and other related departments. They are designed for defibrillation, synchronized cardioversion, external pacing and ECG monitoring. Compatible with biphasic and monophasic defibrillators, our electrodes offer direct connections to a variety of defibrillators, such as Zoll® and Medtronic® QUIK-COMBO<sup>TM</sup>. We also offer adapters, allowing multiple brands of defibrillators to use the same electrodes.

## **Features**

- 60" lead wires for maximum convenience and utility
- Hydrogel maintains excellent adhesion to the patient's skin
- Radiotransparent and radiotranslucent options available

**Lead Wire Length** 

TZ Medical: 60"

Competitor Electrodes: 42"

Competitor Electrodes: 24"

Product Description	Size	Medtronic®1	Universal <sup>2</sup>	Zoll <sup>®3</sup>
Adult Radiotranslucent pads, leads out	А	P-111-M1	P-111-T1	P-111-Z1
Adult Radiotransparent pads and leadwires	Α	P-211-M1	P-211-T1	P-211-Z1
Adult Radiotransparent pads and leadwires, leads out	Α	P-311-M1		P-311-Z1
Adult Radiotransparent, large posterior pad	A/B	P-214-M1	P-214-T1	P-214-Z1

Pad Dimensions: A=6"x 4.25"

B=6"x9"

1 - M1 Medtronic models are comparable to Medtronic® Physio-Control QUIK-COMBO™ electrodes.

2 - T1 Anderson models allow for multiple brand of defibrillators to use the same electrodes. (adapter needed)

3 – Z1 Zoll Models are comparable to Zoll® multifunction electrodes.
