ANESTHESIA TUBE HOLDER

The TZ Medical Anesthesia Tube Holder is an innovative, attachable adapter designed to keep anesthesia and ventilator tubing organized and secure during procedures involving sedated patients. Easily connecting to the TZ Medical Cobra Board universal connector, it can be positioned at the head of the bed for optimal access and control. Featuring designated slots for streamlined tubing management, the Anesthesia Tube Holder helps reduce clutter, improve workflow efficiency, and enhance patient safety in the clinical environment.

Key Benefits:

- Attachable adapter for easy integration with the existing TZ Medical Cobra Board
- Designated slots for organizing anesthesia and ventilator tubing
- Helps secure tubing to reduce movement and dislodgement risk
- Improves workspace organization by minimizing clutter

Item #	Description	UOM
CBR-0053	Anesthesia Tube Holder	1 each (reusable)
