# SKULL PINS

TZ Medical Skull Pins are a disposable solution to cranial stabilization. The stainless steel skull pins are inserted into the skull clamp to fixate the patient's head during surgery. The pins are packaged sterile in a pack of three, and come with a protective cap, making them safe and easy to handle.

## Features

- Cost Effective
- Improves cranial stabilization
- Safe and easy to handle
- Sharp and durable stainless steel
- Works with existing skull clamps

Item Number	Description	UOM
SP-001	Adult, Stainless Steel Skull Pins	Box of 10
