

# TZ MEDICAL COMFORT BANDS

## Comfort Band

The TZ Medical Comfort Band offers a soft plastic radial pressure band with ridges on the exterior for fine-tuned adjustments and maximum patient comfort. These bands are available in both sterile and non-sterile varieties, and are also offered in three, color-coded sizes to accommodate all patient types.

## Neptune Comfort Band

The Neptune Comfort Band has all of the great features of the regular Comfort Band, with the addition of a Neptune pad built into the device, to further facilitate hemostasis at the puncture site.

## Product Features

- Bands offer a hands-free approach to hemostasis following needle or sheath removal
- Can be used in cardiac cath labs, radiology departments and dialysis clinics for radial, brachial and hemo-dialysis procedures
- With multiple color-coded lengths to choose from, our bands will fit all body types comfortably
- Cost effective and self-contained hemostasis device
