

SECURE RADIAL BOARD

The TZ Medical Secure Radial Board is designed to secure and orientate the patient's right or left arm during any vascular procedures. The arm board and straps eliminate unwanted movement yielding a consistent image for the physician when performing vascular access.

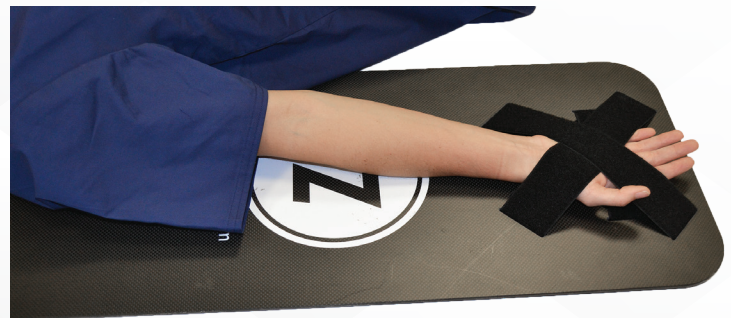

Disposable Straps
Two 2" x 24"
One 2" x 18"

Features

- Can be used on either the right or left side for radial access
- Straps reduce patient movement
- Large landing area for equipment
- Lightweight, ultra-durable carbon fiber construction
- Invisible under fluoroscopy
- Can be used for all diagnostic and interventional imaging procedures
