Intern Testimonies

"I feel very fortunate to have had the opportunity to spend the last 3+ months in Oregon with TZ Medical as a Medical Device Sales Intern. If you're looking for an opportunity with a company that will continuously challenge, develop, and supports you on your journey into medical sales, TZ is the place for you. During my time in Portland, I had the opportunity to work directly with outside reps, managers, and clinical specialists to develop hands-on, practical skills that are paramount to know in the field of medical devices. I am extremely confident that TZ has given me all the necessary guidance, knowledge, and tools to succeed as I move into an outside sales associate position. Everyone at TZ wants you to succeed and it is exemplified in their company culture and willingness to go the extra mile. This program has been such a valuable and gratifying experience. If you're looking to break into the field of medical devices with an exemplary company, I highly recommend applying to the TZ Medical Internship Program. You won't regret it!"

- Cam Richardson, 2021 Internship, Current Employee

"I feel very fortunate to have noticed the opportunity for the internship on LinkedIn, as I couldn't imagine a better beginning to my career in the medical device field. The internship program will challenge you not only professionally, but also as an individual. The company culture that TZ medical is second to none and you will immediately feel at home from the first meeting. Not to mention the opportunity to live with your fellow intern's forms friendships that will last a lifetime. I personally could not be happier with my decision to work for TZ Medical."

- Michael Crowley, 2021 Internship, Current Employee

"The TZ Medical Internship experience is truly unmatched, I have grown more over the last 4 months personally and professionally than I ever expected. TZ Medical's company culture is beyond unique and I am thankful beyond words to have been a part of the internship and now a full-time sales associate. With a more extensive clinical background having worked in direct patient care, TZ Medical provided me with the sales training and experiences I need to succeed in the medical device sales field. Not only was I challenged daily, pushed out of my comfort zone, and achieved things I never thought were possible, TZ made it possible and I wouldn't change a thing. Originally planning to attend PA School, I am so thankful for the opportunity that TZ Medical provided me - allowing me to still be involved in changing the lives of others, connecting and building relationships with physicians and healthcare workers, and providing them with medical devices that are first to market - such a unique capacity to fill as a medical device sales rep. Lastly, the friendships I made during this internship will truly last a lifetime and I don't know how I lived without them before this! "

- Katie Rosauer, 2021 Internship, Current Employee
