**Features**

- Triple Fluted design for easier insertion into bone
- Wider diameter than typical distraction pins
- Color-coded sizes for faster identification
- Made with 100% titanium
- Cost effective
- Safer and sturdier than pins made from stainless steel
- Compatible with all current ACF systems

**Distraction Pin Accessories**

- DP-S: Caspar Screwdriver Universal
- DP-72-CDR: Caspar Distractor Right
- DP-74-CDL: Caspar Distractor Left

**Ultimate Strength Comparison**

Average of force vs displacement curves for bending test of cantilevered pins for TZ Medical and competitor’s distraction pins.
